- You can choose to have your computer shipped to you. Standard shipping is free, and Apple provides you with estimated shipping and delivery dates before you enter your payment information.
- You can choose to pick up your computer at an Apple Store[®]. Select an Apple Store and Apple will tell you the availability for the model you selected before you enter your payment information.

Why order a recommended Apple computer online through Saint Mary's?

Our recommended models include system specifications that should help the computer last for four years at Saint Mary's, and they include Apple's AppleCare+ three-year warranty. ResNet has had a lengthy and positive experience with Apple computers. Information Technology purchased the 13-inch MacBook Pro for College faculty and staff who use Apple computers.

In addition, ordering a recommended computer online using the instructions above ensures that you will receive the correct educational discount for being a Saint Mary's student, you can easily select a recommended computer model or customize one for your needs, and Apple will give 3% of your purchase price back to the Saint Mary's Fund. (The Saint Mary's Fund helps with the College's general operating budget, the money does not go to the Information Technology department or ResNet.)

Devices such as Apple's iPad should be viewed as complements to a student's computer, rather than a replacement for a student's computer.
