Recommended Apple Computers

To order a recommended Apple computer online:

ResNet recommends that you take the time to review our *2024/2025 Student's Guide for Bringing a Computer to Saint Mary's College*, available on our ResNet website at www.saintmarys.edu/resnet, before selecting a computer for purchase.

Visit www.apple.com/edu/saintmarys to take advantage of education pricing from Apple.

- If you wish to purchase an Apple computer with education pricing, visit www.apple.com/edu/saintmarys and scroll down to the Mac section to select the computer you wish to purchase and customize it to your liking.

- Saint Mary's College recommends that new Apple computers be configured to include at least 16GB of memory and at least 512GB of storage. We also recommend including three years of AppleCare with the purchase of a Mac.

- You can choose to have your computer shipped to you. Standard shipping is free, and Apple provides you with estimated shipping and delivery dates before you enter your payment information.

- You can choose to pick up your computer at an Apple Store®. Select an Apple Store and Apple will tell you the availability for the model you selected before you enter your payment information.

Why order a recommended Apple computer online at www.apple.com/edu/saintmarys?

ResNet has had a lengthy and positive experience with Apple computers. Saint Mary's Information Technology purchased the 13-inch MacBook Air and the 14-inch MacBook Pro models for College faculty and staff who use Apple computers. In addition, ordering a computer online using the instructions above ensures that you will receive the correct educational discount for being a Saint Mary's student, you can easily customize an Apple computer for your needs, and Apple will give 3% of your purchase price back to the Saint Mary's Fund. (The Saint Mary's Fund helps with the College's general operating budget, the money does not go to the Information Technology department or ResNet.)

Devices such as Apple's iPad should be viewed as complements to a student's computer, rather than a replacement for a student's computer.

A note about Microsoft 365 for Students: Saint Mary's College offers Microsoft 365 for Students for free to our students. Microsoft Office includes Word, Excel, and PowerPoint. Licenses for the software can be requested online by active students during orientation and when classes are in session for the academic year. Once a license has been assigned, the software can be downloaded directly from Microsoft.

Saint Mary's College also provides free Bitdefender security software to all students for their personally-owned computers.
